

Sackler Discussion Group

This monthly forum brings together researchers from biological, physical, and engineering backgrounds. Our focus is on research-in-progress talks.

Friday, October 20, 2017

12 - 1 pm; Lunch served at 11:45 am
Sloane Physics Laboratory 57
(217 Prospect St.)

Olfactory sensing in a vast odor space: adaptive mechanisms for robust combinatorial coding

Nirag Kadakia
Molecular, Cellular and Developmental Biology
Postdoc, Emonet Lab

Measuring mitochondrial metabolism by modeling multiordinate mass-isotopomers: from rare disease to diabetes drug”

Dick Kibbey
Yale School of Medicine
Associate Professor
